## Course Research Projects: Faculty Application Institutional Review Board

Faculty members are responsible for teaching their students about research ethics and ensuring that students adhere to the highest standards in their research projects. Although some course assignments do not require Institutional Review Board review and approval, we strongly recommend that instructors who require students to conduct research complete this application in order to notify IRB that students will be engaged in research and to model best practices to our students.

Course Instructors should complete the first two pages of this application. Instructors should require each student (or student research team) to complete the *Student Application* for hir specific research project. Instructors must submit this form and Student Applications for each member of their class as a single PDF to [irb@wells.edu](mailto:irb@wells.edu).
