Course Research Projects: Student Application Institutional Review Board

Each student researcher or research team must provide brief answers to the following questions. Once completed, students should print their application and turn it in to their course instructor.

Student Researcher's Name: _____

Title of Project: _____

1. What is your research question? Why is this question important for your discipline?

2. What methodology will this study utilize?

3. Describe your intended sample. What types of people will be intentionally included and/or excluded?

4. How will you protect participants' identities?

5. How will you ensure that participants have given informed consent?

6. Does the study use deception? How will you debrief participants about any deceptions?
