

# Home Storage of Fruits & Vegetables

Thursday, October 6 at 7:00PM  
Center for Sustainability  
Zabriskie Hall Room 212

This class will focus on the conditions you need to keep the harvest fresh into the late fall or even late winter. We will cover storing apples, pears, root crops and a few other odds and ends using indoor and outdoor structures including everything from garbage cans to root cellars. Format is a slide show with a demonstration to follow.

Instructor: Monika Roth, Agriculture Educator  
Cornell Cooperative Extension of Tompkins County
