

# Sustainability Perspectives

## *Building Foundations of Sustainability in Kindergarten*

**Heather Frost '09** is the Outdoor Science Lab teacher at Ithaca Montessori School, where teachers integrate sustainability teaching into their everyday practices using the Montessori Method as their guide. The Kindergarten program is designed to instill a sense of curiosity, excitement and stewardship for the natural world into the hearts and minds of the children. Students explore many paths to sustainability through their outdoor classrooms, Outdoor Science Lab, and their permaculture inspired Edible Forest Garden.

Monday, November 6, 2017 from 12:20 – 1:20PM  
deWitt Lecture Hall, Zabriskie Hall Room 106

All *Sustainability Perspectives* series events are free and open to the public.  
The series explores the concept of 'sustainability' from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at [mbrown@wells.edu](mailto:mbrown@wells.edu), as soon as possible.
