

# Sustainability Perspectives

## *An All-of-the-Above Renewable Energy Future*

**Art Weaver**, co-founder and president of *Weaver Wind Energy Inc.* will describe what a clean energy future would really look like and how we can get there with a mix of proven technologies (think Wind, Water, Solar) ready to go now. Dr. Weaver is a scientist with MD and PhD degrees from Mayo Medical School and Mayo Graduate School of Medicine and is the author of numerous peer-reviewed publications. Prior to establishing *Weaver Wind Energy*, he founded and served as president and CEO of *Renovus Energy*, a solar design and installation company based in Ithaca NY.

Monday, March 7, 2016 ~ 12:20 – 1:20PM  
Stratton Hall Room 209

All *Sustainability Perspectives* series events are free and open to the public.  
The series explores the concept of sustainability from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at [mbrown@wells.edu](mailto:mbrown@wells.edu), as soon as possible.
