Farming the Woods: An Integrated Permaculture Approach to Growing Food and Medicinals in Temperate Forests

Steve Gabriel, co-founder of the *Finger Lakes Permaculture Institute* and agroforestry specialist for the Cornell Small Farms Program, will discuss the content of his new book, *"Farming the Woods"*. Many of the daily indulgences we take for granted, such as coffee, chocolate, and many tropical fruits, all originate in forest ecosystems. But few know that such abundance is also available in the cool temperate forests of North America; learn about growing high-value non-timber forest crops such as American ginseng, shiitake mushrooms, wild leeks, maple syrup, and more.

Monday, November 2, 2015 ~ 12:20 – 1:20PM
Stratton Hall Room 209

All *Sustainability Perspectives* series events are free and open to the public. The series explores the concept of sustainability from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at mbrown@wells.edu, as soon as possible.
