

Sustainability Perspectives

Research Perspectives at the Intersections of Climate and Energy Justice

Daniel Carrión, assistant professor of Environmental Health Sciences at the *Yale School of Public Health*, and director of Education for the *Yale Center on Climate Change and Health*, will explain energy is fundamental to human health, specifically the energy for cooking, heating during the winter, and cooling during the summer. However, historical choices for energy production are driving our climate crisis, with poor communities and communities of color bearing the brunt. This seminar will discuss research considering these intersections, specifically focused on energy poverty and energy insecurity.

April 18, 2022 12:30 – 1:30PM

Virtual event: **Zoom #:** 882 1733 5869 *passcode:* ETF?9r*B

All *Sustainability Perspectives* series events are free and open to the public. The series explores the concept of 'sustainability' from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at mbrown@wells.edu, as soon as possible.
