

Sustainability Perspectives

Regenerative Agriculture in Action

Rebecca Haag '74, executive director of the *Island Grown Initiative* (IGI) on Martha's Vineyard, takes a multifaceted approach to creating a more resilient and equitable food system on the island. *IGI* educates island families on the benefits of eating healthy, locally grown food, innovates new growing techniques that expand year-round food production, reduces food waste by recovering food to redistribute to those needing food assistance or used for compost to improve soil health, and increases food access to food insecure households.

Monday, November 4, 2019 ~ 12:20 – 1:20PM
deWitt Lecture Hall, Zabriskie Hall Room 106

All *Sustainability Perspectives* series events are free and open to the public.
The series explores the concept of 'sustainability' from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at mbrown@wells.edu, as soon as possible.

Arrive curious ∴ Graduate prepared.
