

Sustainability Perspectives

The promise of Silvopasture

Humans' relationship to animals has a long and storied past, yet modern agriculture has sought to separate forest and field, animal and pasture. The agroforestry practice of silvopasture combines trees, animals, and forages in a symbiotic and dynamic ecosystem. Join **Steve Gabriel**, local farmer, author, and extension specialist for the *Cornell Small Farms Program*, to discuss the potential for this innovative farming practice that ranks among the best for addressing a changing climate.

Monday, April 22, 2019 ~ 12:20 – 1:20PM
deWitt Lecture Hall, Zabriskie Hall Room 106

All *Sustainability Perspectives* series events are free and open to the public.
The series explores the concept of 'sustainability' from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at mbrown@wells.edu, as soon as possible.

Arrive curious ∴ Graduate prepared.
