

Sustainability Perspectives

Three Birds, One Stone: *Ending One Small City's Food Insecurity, Social Isolation and Economic Stagnation*

Tanzania Roach '99 will share her experience developing *Happy Camper Compostage*, an ambitious young project that aims to create a simple infrastructure to redirect food & biodegradable wastes from landfills. We look at food waste as a resource and use low-tech, human-powered solutions to address the problem of food insecurity, social isolation and economic stagnation. Key to our vision is being a business that models integrity, purposefulness and relevance.

Monday, November 16, 2020 - 12:30 – 1:30PM

Zoom meeting: 875 7577 0719 Passcode: 185407

All *Sustainability Perspectives* series events are free and open to the public.
The series explores the concept of 'sustainability' from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at mbrown@wells.edu, as soon as possible.
