

Sustainability Perspectives

Genetically Engineered Trees: No Solution to Climate Change

Theresa Church, assistant director of the *Global Justice Ecology Project* and the coordinator of the *Campaign to STOP GE Trees*, will explain that the climate crisis is leading to an increasing promotion of genetically engineered (GE) trees as a "solution," arguing that they will sequester "more carbon," but at what cost to forests, communities, and health?

March 28, 2022 12:30 – 1:30PM

Virtual event: **Zoom #: 882 5766 9080** *passcode: !htSH2vG*

All *Sustainability Perspectives* series events are free and open to the public. The series explores the concept of 'sustainability' from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at mbrown@wells.edu, as soon as possible.

Arrive curious ∴ Graduate prepared.
