The GoPro HERO 8 Black's frameless design makes it ultra-clean looking and very simple to use. GoPro's brilliant new flagship shooter is without question the most powerful and feature-rich action camera

in the world, with a simple yet highly-intuitive interface that makes it easy to achieve excellent results – even for beginners. While some fans may be disappointed to learn that the HERO 8 Black camera lacks a front-facing display as standard (an add-on ‘flip-up’ screen can be purchased) any gripes over this lack of additional functionality are made up for by the superb overall package the Hero 8 Black offers.
