American Anthropology Association (AAA) style follows the *Chicago Manual of Style* (*CMS*) Author-Date style. The *Chicago Manual of Style* is available as part of the Ready Reference Collection at the circulation desk. For further questions or sources not covered in this quick style guide, please reference the *Chicago Manual of Style*.

Formatting the References List

- Your references list should be titled References Cited

- All sources cited in the text should be included on the References Cited. Do not include any sources that were not cited in the text.

- Arrange your sources alphabetically. When citing multiple sources by the same author, the sources should be in chronological order, from oldest to most recent.

In-Text Citations

The general format for in-text citations is the author's last name and the source's publication date enclosed by parentheses, at the end of the sentence before any punctuation.	Examples: … (Smith 2010). … (Wells and Morgan 2007).
When quoting from a source, you must include the page number in the in-text citation. The page number is added after the publication date, separated by a comma. If citing a range of pages, you can use a dash to separate the pages.	Examples: … (Smith 2010, 3). …(Wells and Morgan 2007, 15-16).

When citing a source that has four or more authors, use the first author's last name followed by *et al.* rather than listing all of the authors.	Example: …(Wells et al. 2001).
