

*I'm siiiinging' in the rain...*

Hey, Orson, is that you making all that noise in the bathroom..?

*Yep, it's me. I'm taking lots of cool showers this month. But don't worry: I only take quick "bird baths". I know how much water and energy those long, hot showers can waste.*

Taking much shorter showers is good, Orson, but why so many...?

*Well, they say that April showers bring May flowers...I'm just doing my part to beautify our campus before Commencement.*

Wait... what...? Oh, never mind. Shower on, Orson.

## Pet Peeve

Maybe it's a sign of Spring Fever, but these unsustainable behaviors have pushed our buttons lately: we see frequent *mis-cycling* of the single-use hot and cold "go-cups". Empty paper hot cups and their plastic lids and empty plastic cold drink cups and their lids all go in the gray/black landfill trash bins.

**Please don't dump excess fluids or ice in either the trash or recycling bins!**

Think instead about bringing and using reusable beverage containers for both your hot or cold beverage purchases. **Bonus:** the GRIND offers a discount for presenting your own container for beverage refills.

## Installments

are produced as a community service by the  
Wells Center for Sustainability  
and the Environment.

*Arrive curious ∴ Graduate prepared.*

## April is Earth Month

April 19 – 7:00PM  
Zabriskie Lecture Room 106  
The film follows Janene Yazzie as she searches for the source of contamination in her son's school's water. Free organic popcorn served.

Wells Campus Greens are busy planning Earth Week activities – stay tuned for info about events between April 22-27. These include the *Earth Day Fair* on April 22 in the afternoon at the Boathouse and this fun film screening on April 23<sup>rd</sup> in Sommer Center.

If you have been on the sidelines of adopting more sustainable behaviors and practices. Let this April mark the time that **YOU** spring into action.

**Installment** is a double play on words: these informational mini-newsletters are placed inside bathroom cubicles ("in stalls") and the content gets regularly changed out – in "installments".

**Get it? Got it? Good!**

## Will we getcha?

Campus Greens are still out looking for those carrying their reusable mug. If so, you might be spotted doing the right thing and be rewarded with a GOTCHA card. Each GOTCHA is redeemable for \$1.00 off a beverage purchase at the GRIND Café.

## Watch Your Waste

Please educate yourself on the proper separation of food waste in the dining hall. All plates, cups, plastic glassware and silverware are reusable and should go through the dish machine – please place those items in the designated trays in the dining hall dish room.

What goes in **compost**: All food waste (table scraps) as well as brown paper napkins.

What is **landfill trash**: anything else that is disposable: foil salad dressing packets, plastic condiment cups, butter or jelly packets, saltine wrappers, etc.
