Installment ...

Welcome back, Orson. We missed you. Did you have a good summer vacation? I did, but I'm back, ready to teach the new members of our Wells community how to make more sustainable choices. I'll get everybody Fall-ing into line. (Sigh) Orson, I hoped you'd use your time off to develop some better material.

Watch it! I do have talons, you know...

New **GOTCHA** cards are out now. Be seen using your own reusable beverage container and we might getcha with a card to redeem at

the GRIND for a free refill in your own container. This Block1 card is good through October 15th.

GREAT MINDS RIDE TOGETHER.

Looking for a ride home for the weekend or Fall Break? Seeking someone to share your commute to work? Want to fill those empty seats in your car when you make a shopping run? Wells is part of the *Finger Lakes RideShare* network. This free service offers a money-saving way to go wherever life takes you. Zimride's unique platform uses social networks to help you find rides with others with shared interests. Join the network: **Zimride.com/flxrideshareacademic** and click on

our Wells College community portal.

Set up your profile. You choose whether to restrict your search to within the Wells community or to open it up to trusted academic partners including Cornell, Ithaca College, TC3 and others. Search for open seats to where you want to go, or post a ride of your own and share your trip. Zzzzzzzzzimride!

"Installment" is a double play on words: these mini-newsletters are placed inside bathroom cubicles ("in stalls") and the content changes periodically - in "installments." Get it? Got it? Good!

The start of a new academic year is a perfect time to learn how to properly separate landfill trash from recyclables. Place these recyclable items in the same blue bin:

mixed paper (white/colored paper, magazines, catalogs, newspapers, envelopes, paperboard) metal cans and foil glass containers plastic containers #1 through #7 Milk and juice cartons small rigid plastics

Help reduce any "ick!" factor. Please empty and rinse out food containers. Please don't dump liquids into either trash or recycling bins; drain them in the nearest sink.

A reminder to our Wells campus community: we observe Carry In/ Carry Out

for all classrooms, faculty and staff offices, and student residence hall rooms. Building Care staffers will empty waste station containers in each building, but they are not responsible for emptying trash or recycling containers in your office or room. Taking out collected landfill trash or recycling in your office or room is *your* responsibility. Please take items to the nearest waste separation station and pitch in - into the right bin, please.

Ouestions on how to be more sustainable? Email: sustainability@wells.edu

Looking for items for your residence hall room? Check out the **Bargain Basement** in ground floor Main. From our spring *Trash2Treasure*

and want to free up closet or drawer space, donate still-usable, clean items to the Bargain **Basement.** Put donations in the right labeled sections or leave them in the sorting area.

Need office or school supplies? Check the **RUMPUS Room** in Macmillan 111A. Put unneeded items in RUMPUS, too.

Can't find what you need in our reuse areas on campus? Think about buying gently used items instead of purchasing

new goods. Click on SHOPPING

Reusetompkins.com for info on over three dozen reuse stores around Ithaca.

Installments are a community service of the Center for Sustainability and the Environment
