

Hey, Orson, you're looking pretty comfy there in the shade.
*It was a long year, but a really good one for our Wells community.
I am taking the summer off, but I'll be back at the start of the new
academic year with ideas on how yooooou can be more sustainable.*
Whooooooooooooo can be more sustainable?
Yooooooooooooou can!
Whooooooooooooo can?
That's it, I'm done for the summer. You're why I need this break!

Dang! *That* was easy! We have set up a *Staples Advantage™* program with discounted pricing on office supply items we all use regularly. We also worked with *Staples* to create a special drop-down menu of more sustainable products. Check them out! Going “green” may not cost more “green”, if you know what we mean. If you need help establishing a *Staples Advantage™* account for your department or program, email sustainability@wells.edu.

Check this out...

You really *can* dry your wet hands with just one paper towel! Turn off the faucet to save water.

- ◆ Over the sink, shake your wet hands briskly, no fewer than 12 times.
- ◆ Take just one paper towel and fold it in half.
- ◆ Now, dry your hands completely.

Try it - it *really* works! Save another tree!

Installments

are produced as a community service by the
**Wells Center for Sustainability
and the Environment.**

Arrive curious ∴ Graduate prepared.

RECYCLING is RIGHT. LANDFILL what's LEFT.

Summer is a great time to practice proper landfill trash and recycling separation. Place all these **recyclable** items in the same **blue bin**:

mixed paper (white/colored paper, magazines, catalogs, newspapers, envelopes, paperboard)
glass containers **metal cans and foil**
plastic containers #1 through #7
Milk and juice **cartons** **small rigid plastics**

Help reduce any “ick!” factor.

Please empty and rinse out food containers.
Please don't dump liquids into either trash or recycling bins; drain them into the nearest sink.

A reminder to our Wells campus community: we observe **Carry In/ Carry Out** for all classrooms, faculty and staff offices, and student residence hall rooms. Building Care staffers will empty waste station containers in each building, but they will not empty trash or recycling containers in your office or room. Taking out collected landfill trash or recycling is *your* responsibility. Please take items to the nearest waste separation station and pitch in, into the right bin, please.

Carry In
Carry Out

“Installment” is a double play on words: we place these informational newsletters inside bathroom stalls (“in stalls”) and the content of these newsletters is changed out periodically - in “installments.”

Get it? Got it? Good!

Want to stay

“In the Loop”

with sustainability at Wells?

Join the **Wells Sustainability Group** (WSG) email list and stay “up” on relevant sustainability-related news and events on- and off-campus. To join the WSG list, send an email to sustainability@wells.edu with the message: “subscribe WSG”.

We are soliciting new members – especially students – for the all-college *Sustainability Advisory Committee*. Interested? Email us.

Email: sustainability@wells.edu to ask us a question or share an observation.
