

Sustainability Perspectives

How You Can Help Achieve a Waste-Free Future

Jesse Kerns is a program manager for the Syracuse University *Center for Sustainable Community Solutions*. You are probably familiar with some of the negative impacts of mismanaged waste, such as water pollution caused by single-use plastics, but in the face of such large and complex issues you may feel powerless to affect meaningful change. Through this talk, Mr. Kerns hopes to answer some of your tough questions about waste reduction, reuse, and recycling, and to provide you with some practical strategies for making a positive difference in your schools and communities.

April 24, 2023 12:30 – 1:30PM

Virtual event: **Zoom** #: **882 3560 3569** *passcode: ?1w^.duS*

All *Sustainability Perspectives* series events are free and open to the public. The series explores the concept of 'sustainability' from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at mbrown@wells.edu, as soon as possible.
