

Spring 2022
Science Colloquium

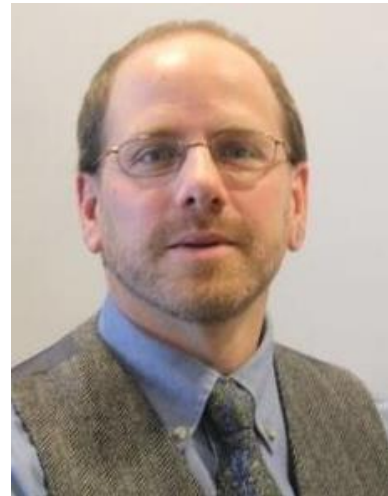

Friday, February 11, 2022

12:30PM

Stratton Hall Room 209

Reflections on over 500
sustainabilitymath.org
blog posts

Professor Pfaff will explain why he created the *Sustainability Math* resource site and blog. He will choose favorite graphs, data sites, and interesting facts. He will talk about how he and many others use this valuable educational resource to support Mathematics teaching and other research. What stories can these data tell us about sustainability?

Thomas Pfaff

Professor and Chair, Mathematics
School of Humanities and Sciences
Ithaca College
