

Bio

Amber Hardy started with ALDI in Tully, NY at the local distribution center as a warehouse selector during summers of college.

Amber is a 2009 graduate of Hobart-William Smith Colleges with a Bachelor's degree in Economics.

After graduation, Amber joined the District Manager team including an 11-month training period in Utica area as well as North country of NY.

After training completion Amber ran 4-5 store districts in the Southern Tier of NY for just under 4 years. As ALDI recognized a growing need to address the operational carbon footprint, aiming to minimize carbon emissions, Amber was offered a national Project Manager for Energy Management role based out of the Tully, NY distribution center. After many years of centralizing a national program for all energy, refrigeration and operational carbon footprint initiatives (scope 1 & 2 excluding transport), Amber was promoted to a Director at ALDI's National Real Estate office in Dublin, OH.

Amber has built out the central facilities, refrigeration, energy programs all with the core focus being minimizing operational carbon footprint. Amber represents the US on the International Climate & Energy Committee as well as four other international committees driving global collaboration and progress in her responsibility areas. Additionally, Amber is a member of the ALDI National Real Estate Committee & Energy Management Committee for ALDI US.
