

Hey, Orson, what are you doing now?

*I'm out drumming up support for more sustainable actions on campus.*

Let me guess: you're that different drummer that we are all supposed to be marching to? Get it... *MARCH* -ing to...? Ba-dum-bum!

*Watch it! I would point out that I am holding a couple of sharp sticks here.*

OK, lead on, Orson!

## Help Wells win our *Race to Zero Waste!*

Through March 27<sup>th</sup>, Wells is participating in this friendly national competition to see which schools can minimize their waste, recycle the most materials, and collect the most compostable food waste. *Please* help Wells continue to do well. Remember:

*Recycling is right – Landfill what's left.*

Take any and all trash and recyclables you generate in your room or your office to the nearest waste separation station in your building. Remember: *Carry in, Carry out.* Please review the guidelines at each station for what goes in which bin. Single-use disposable plastic items all go in landfill trash!

### *Installments*

are produced as a community service by the Wells Center for Sustainability and the Environment.

*Arrive curious ∴ Graduate prepared.*

## Do some early Spring Cleaning!

Even though we won't have a Spring Break this year, you could still take some time to sort thru your closet and drawers. Have winter gear you won't use again once Spring arrives? Drop off *clean*, still-usable items at the free *Bargain Basement* in Main.

The same goes for the *Rumpus Room* in Macmillan 111A: do you have a stash of unused folders, pens, index cards, paperclips, paper, etc. Drop off unwanted but still usable school and office supplies to share with others for free.

*Faculty and staff:* Have you been holding onto months (*years??!*) of old paperwork? Think about *"lightening your [filing] load."*

This *Race to Zero Waste* season is a great time to sort through and recycle files.

*Bring out your dead:* If you have spent rechargeable batteries, blown fluorescent lightbulbs, or empty plastic shopping bags kicking around, drop them off in the labeled boxes in Zabriskie 212 for proper recycling.

*"Installment"* is a double play on words: these informational mini-newsletters are put inside bathroom cubicles (*"in stalls"*) and the content gets changed out - in *"installments."*

Get it? Got it? *Good!*

Will we *getcha*?  
Will we spot you doing the right thing this semester?

Let us catch you carrying and using your own reusable beverage container, so we can reward you with a *GOTCHA* card! These cards are redeemable at the *GRIND* for \$1.00 off any hot or cold beverage and are good through the end of the semester. *Get yours!*

*Please give Wells an energy break!*

When you leave spaces, *PLEASE* make sure to turn off all lights. If you will be out of your room or office for an extended period or whenever you are not using them, please *turn off and unplug* all energy-using equipment – especially microwaves, electronics, and cell phone and computer chargers. Most continue to draw power even when the item is turned off but left plugged in.

Wells participates in the *Finger Lakes Rideshare* program. Sign up to share your ride with others or to request one: <https://511nyrideshare.org/web/finger-lakes-rideshare>
