

Orson, what are you up to *now*..?!?

I'm just exercising my democratic right to free speech.

That's nice, but aren't owls carnivorous? Will you really eat tofu?

Well, no, although the owlets and I have been eating more sustainably, including lots of locally-sourced, organic field mice.

So, Orson, is this protest really just a ploy to get everyone *else* to eat the tofurkey and leave the real bird for you and your brood?

OK... busted. Hey, an owl's gotta do what an owl's gotta do...

"Installment" is a double play on words: these informational mini-newsletters go inside bathroom cubicles (*"in stalls"*) and the content is changed out - in *"installments."*

Get it? Got it? Good!

These are examples of **"Single-Use Plastics"** that are **not recyclable**:

DO place all **THESE** items in **Landfill Trash**:

single-use, disposable items:

plastic cold cups and lids

plastic straws or stirrers

plastic hot cup lids

plastic eating utensils

plastic "clamshell" take-out boxes

small disposable items:

plastic condiment cups

plastic bottle caps

metal bottle caps

medication bottles

K-cup pods

ANY Styrofoam items (cups, plates, "clamshells" take-out boxes, food packaging trays, packing peanuts)

If we *"gotcha"* using your reusable beverage container, redeem your **GOTCHA** card – good for \$1.00 off any beverage at the **GRIND Café** – before the end of the semester. Get in the habit of carrying and *using* your reusable beverage container or mug – you get discounts on your barista drinks at the GRIND when you use your own mug, too! Our student "spotters" just might *"getcha"* with a **GOTCHA** card.

A message about auto door openers: These units are in place *to help those with mobility impairments* enter and exit safely. If you need to use these devices, please do so, but we have seen folks who appear fully able to manually open doors using these auto door opening mechanisms to enter and leave buildings. These auto door openers offer *one* way to access a building, but they are *not the preferred way* to open doors if you are not mobility impaired. Be aware that using an automatic opening mechanism to enter and leave a building holds the doors open longer than usual. In colder weather, this will require extra energy to re-heat the building after use.

Heading home for Thanksgiving? Try *Finger Lakes Rideshare's* free portal to offer a ride or to request to fill a seat in somebody's car who will be headed your way. Create a profile and look for matches. <https://51nyrideshare.org/web/finger-lakes-rideshare/home>

Speaking of heading out for the Thanksgiving break: *Don't be a turkey!* Please **turn off and unplug** all energy-using equipment and devices. Don't waste needless energy while you are away from your campus room or office.

Installments

are produced as a community service by the Wells Center for Sustainability and the Environment.

Drink or drain it. Don't DUMP it.

Please don't empty liquids into either recycling **or** landfill trash bins.

Arrive curious ❖ Graduate prepared.
