**Karin A. Gregory** is the co- founder and partner at Furman Gregory LLC a boutique business law firm since 2005. As of 2018, she stepped aside from full time law practice to focus on Blue Highway Capital, a growth stage private equity fund licensed by the USDA that invests in rural based businesses throughout the US with a focus in the Northeast and the Mid-Atlantic states.

She combines an advanced education in law and public health with over thirty years of experience in the commercialization of technology and disruptive innovations along with business advisory (strategy, finance and legal) expertise in the scaling out of smart growth companies. Her law practice client work focuses on FDA regulated companies in such sectors as medical technology, healthcare IT, food and nutritional supplements – and entails matters within public and private contexts at both the state and federal levels. Continuing with her long-standing commitment to mentoring, advising and teaching in the areas of entrepreneurship, law and health policy – she serves on a range of boards and other panels in addition to active engagement as a member of various community and civic causes. In recent years, she was a venture capital investor with Mass Ventures, a founder of Dover Medical Ventures, and has advised Kimberly Clark’s venture capital fund on medical technology and for several years served on the boards of the Maine Venture Fund and as the Chair of the CEI Ventures board in addition to participating in a number of New England angel investment groups. She has a B.A. in Biochem-Psychology from Wells College, an M.P.H. in Health Services from Boston University and a J.D. from the University of New Hampshire School of Law.

She serves on the Boards of Accelerera, Inc. a start up medtech company and Engine, Inc. a community based arts organization both located in Biddeford Maine.
