

Sustainability Film Series

Award-winning director Damon Gameau (*That Sugar Film*) embarks on a journey to explore what the future could look like by the year 2040 if we simply embraced the best solutions already available to us to improve our planet and shifted them rapidly into the mainstream. Structured as a visual letter to his 4-year-old daughter, Damon blends traditional documentary with dramatized sequences and high-end visual effects to create a vision of how these solutions could regenerate the world for future generations.
