

We humans are a force of nature. At the same time human activities alter the basic elements of life – earth, air, water, and fire – those elements change human life. In an arresting new documentary from the producers of *RACING EXTINCTION*, *THE COVE* and *CHASING ICE*, environmental photographer James Balog captures the lives of everyday Americans on the front lines of climate change. With rare compassion and heart, *THE HUMAN ELEMENT* inspires us to reevaluate our relationship with the natural world. Runtime: 78 minutes
