

Sustainability Perspectives

Sustainability Ethics

Ron Meyers, owner of *Ron Meyers Associates*, specializes in teaching, research, and service related to environmental studies and renewable energy in universities, in particular assessing environmental education programs for impacts. He is developing research programs on environmental knowledge, attitude, skills and behavior of learners, including exploration of the concept of environmental ethics, about which he spoke during a Fall 2015 *Science Colloquium*. Dr. Meyers will lead us through a discussion of how sustainability ethics expands upon environmental ethics.
