

Sustainability Perspectives

Invasive Species: *A Challenge to the Environment, Economy and Society*

Hilary Mosher, coordinator for the *Finger Lakes Partnership for Regional Invasive Species Management (PRISM)*, will explain that invasive species cost Americans billions of dollars per year to control. Attendees will learn about some of the area's least wanted invasives and their impact to the environment, human health, and (more importantly) your budget. You will learn the pathways for invasion and how to control or remove some of the nastiest invaders. Together we can *#stoptheinvasion*.

Monday, March 27, 2017 ~ 12:20 – 1:20PM
deWitt Lecture Hall, Zabriskie Hall Room 106

All *Sustainability Perspectives* series events are free and open to the public.
The series explores the concept of 'sustainability' from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at mbrown@wells.edu, as soon as possible.
