

Sustainability Perspectives

Haudenosaunee Biocultural Restoration

Neil Patterson, assistant director of the *Center for Native Peoples and the Environment* at SUNY-ESF, will explain how approaches for restoring relationships between human beings and the Natural World are featured in the work of the Haudenosaunee Environmental Task Force and their Center for over the last twenty years, including the Tuscarora Migration Project, food sovereignty efforts and other environmental protection programs grounded in the biophysical and cultural systems of the Haudenosaunee people.

This talk is offered in conjunction with the *Peachtown Native American Festival*.

Monday, September 19, 2016 ~ 12:20 – 1:20PM
deWitt Lecture Hall, Zabriskie Hall Room 106

All *Sustainability Perspectives* series events are free and open to the public.
The series explores the concept of 'sustainability' from a variety of viewpoints.

Wells is committed to providing access to all events; anyone needing assistance should contact Marian Brown, Center for Sustainability and the Environment, at 315-364-3304 or by email at mbrown@wells.edu, as soon as possible.
